## Psychoanalyst to lecture on paradoxes of freedom

is a word frequently used, but a concept seldom his forum lecture today, Dr. Roy May will explore some of the music to freedom, responsibility, he said.

A greatest paradox is that anxiety is a person can afford if he is aware of it. A third one is that stress relief. "You cannot believe you are," stresses freedom and in his therapy sessions.

To give the patient as much as he can take, Dr. May never realized that the problem lies in his own mind.

If a neurosis doesn't adjust life, but that accept responsibility and do what is right, a theme that appears in Dr. May's books, "In Love and Death."

"Freedom can never be upon a person's God or science or it is the planning, the coining of values that are human freedom," he said.

As a psychoanalyst it of his experiences as a

minister. Religion should deal with anxiety, death, joy, etc., but in our age most ministers tend to overlook those problems so their parishioners take them elsewhere. However, if I wanted to work on the real problems people have, and since they wouldn't come to me as a minister, I looked for another avenue."

In some circles Dr. May is viewed as a heretic because of the way his theories differ from Freud's. "Freud said that human beings are determined psychically. That can't be true, because if we were no one would get well in therapy." Freud also had a lot of sex hang-ups, Dr. May said. He came from Victorian Venice where the society had all the traditional sex symbol problems. "Our society has broken down those old traditions and is now ready to deal with the real basis of sex problems—anxiety."

Dr. May's thesis on anxiety has helped to change the modern attitude toward it and what should be done about it. "Anxiety is good for you, as long as it is part of proportion to the situation," Dr. May said.

"People always ask me if I analyze my friends," Dr. May said. "I only analyze when I get paid for it." Actually, psychoanalysts tend to analyze their friends less than other people do because they need to have a group with whom they can share their emotions and inhibitions, he said.

## Porno here? Theaters say no

Local citizen efforts to ban anti-pornography laws led to the closing of local theaters. Marvin Cox, manager of Drive-In, "I have never seen a pornographic movie and I said no."

Other theaters in Provo say they do not show pornography. "We do not plan to show pornography," said Brian Hartley, manager of Provo's Quality R-rated shows.

Managers are quick to Supreme Court decisions their contention that they show do not pornography.

Marvin Cox, manager of Drive-In, "I have never seen a pornographic movie and I said no."

However, in the Jenkins case, the court clarified the meaning of the Miller decision. The court said "no one will be subject to prosecution for the sale or exposure of obscene materials unless those materials depict or describe 'patently offensive' hard-core pornography."

Marvin Cox  
... Provo theater manager

not be national standards and said that local citizens could establish their own standards to define "hard-core" pornography.

However, in the Jenkins case, the court clarified the meaning of the Miller decision. The court said "no one will be subject to prosecution for the sale or exposure of obscene materials unless those materials depict or describe 'patently offensive' hard-core pornography."

sexual conduct." The court further held it "would be a serious misreading of Miller to conclude that juries have unbridled discretion in determining what is patently offensive."

In the Jenkins case, a five-man majority overturned the Georgia Supreme Court's affirmance of the theater manager's obscenity conviction for showing the movie "Carnal Knowledge." The nation's high court viewed the film and determined it was protected by the First Amendment.

"There are occasional scenes of nudity, but it is not enough to make material really obscene under the Miller standards," wrote Associate Justice William H. Rehnquist.

"You see my standards are higher than the Supreme Court's," says Cox, "because I would not show 'Carnal Knowledge.'

Local managers question the constitutionality of the local ordinances which they say define pornography in a wider sense than allowed by the court.

"If this were enforced to the letter, it would be asinine," contends Cox. "I would never show some of the best movies, which are highly patriotic," he says.

Cox would like to change Provo's law to eliminate "the stuff that has nothing to do with pornography." He contends that when there is governmental control, the law must be enforceable or it should be eliminated. Nevertheless, the managers all report

## Nominations convention to kick off Election '77

**Editor's Note:** This story is the first in a series on qualifications needed for ASBYU officers.

By MARK JOHNSON  
University Staff Writer

Voters in the upcoming ASBYU general election should expect a candidate on the basis of the candidate's desire to serve and his personal mental maturity, according to Dr. J. Eliot Cameron, dean of Student Life.

"Since all ASBYU offices are a service to the student body, I think students should look at candidates from the standpoint of mental maturity and their interest in and devotion to service," he said.

Dr. Cameron said leadership ability is a characteristic of a true desire to serve. When asked if he thought previous experience in student government is necessary for a candidate, he said, "No individual comes to an office knowing all about it."

"He may have some preconceived notions about how the office is run, however, an individual should have a desire to learn all the details of that office in service to the student body," he added.

R. Michael Whitaker, coordinator of student activities, said students should determine whether or not a candidate is willing to make a commitment of time and effort necessary to make the office go.

"Platforms don't amount to much," he said, and added voters should talk to individual candidates to "get a personal feeling of what to expect from the candidate in office."

Any serious candidate for office should have a leadership background and enthusiasm and drive," Whitaker added.

Chris Burdick, ASBYU Elections Committee chairman, said voters should not be "taken" by what merely looks good in a candidate's platform, but should also look at each candidate's past record.

She said platform points should be examined to see "what is feasible and what is not feasible for this campus."

Miss Burdick said she encouraged students to become aware of the personal leadership abilities and qualifications of candidates by getting involved in all of the upcoming

campaign events.

Basic qualifications for ASBYU officers are contained in Article V of the ASBYU Constitution, and Executive Council bylaw I-1.

Article V states "all candidates for office shall have a minimum cumulative grade point average of 2.25 for all university credits of a minimum grade point average of 3.0 for the one semester prior to nomination."

The article adds all officers must maintain, while in office, a minimum

grade point average of 2.25 or they will be discharged from office.

In addition, each elected officer must be a full-time student throughout his year in office, excluding, at their option, the two months of summer term.

Each elected officer is responsible for the activities of his office from the beginning of the spring term following his election until the conclusion of the following winter semester, according to Article V.

The ASBYU Constitution also requires an elected officer to take the following oath of affirmation before the ASBYU Supreme Court Justice before assuming office:

"I do solemnly affirm that I will faithfully administer the responsibilities of the office of ASBYU..."

### ASBYU elections

## Criteria given for candidates

By MARK JOHNSON  
University Staff Writer

Forty-one candidates for ASBYU offices will be nominated at the ASBYU Nominations Convention to be held today from 1 to 3 p.m. in the Main Ballroom ELWC.

At the mandatory rules meeting this morning, Chris Burdick, ASBYU Elections Committee chairman, asked the candidates and their campaign managers to "present a good, clean and honest campaign, so students come away from the elections with a good impression of ASBYU."

"You win on your own qualifications and what you can do, not what the other candidate can't do," she said.

Before the Monday meeting, Miss Burdick expressed disappointment that only 41 candidates are running for offices. She said the low number of candidates could affect overall voter turnout.

"I think a large number of candidates is the key to a large voter turnout," she said. "If we don't have many candidates running, we won't have that big of an appeal to students."

She said platform points should be examined to see "what is feasible and what is not feasible for this campus."

Miss Burdick said she encouraged students to become aware of the personal leadership abilities and qualifications of candidates by getting involved in all of the upcoming

candidates running in the races for Student Community Services, Culture Office and Social Office. These offices would not be voted on in the primary election, she said.

There are eight presidential teams to choose from, and she said the elections should be very good. She urged all students to attend the nominations convention in order to get to know the candidates "before the election process begins to corrupt them."

As the election and balloting proceed, candidates learn to say what will influence voters most, Miss Burdick commented. "I think the nominations convention gives students an excellent opportunity to hear the candidates while their views and expectations are still fresh," she said.

Miss Burdick said the group "Jazz Nucleus" will play at the convention.

The keynote speaker will be Bruce L. Olsen, assistant to President Oaks in charge of University Relations.

Olsen, who served as ASBYU president from 1964-65, as he would speak on what constitutes good campaigning and what is to be expected in elections at a school like BYU.

Miss Burdick said Olsen will speak after she has called the convention to order. At the conclusion of the speech the floor will be opened for nominations. All candidates will have two minutes to make an acceptance

speech, she said.

The rules meeting, held Monday evening and conducted by Miss Burdick, was a general discussion of elections. She reviewed with the candidates the Election Committee goals of achieving a 50 percent voter turnout and raising overall student awareness and student government.

Kirk Culimore, director of the Elections Committee, said the annual Election Rally would be March 11 in the Main Ballroom ELWC at 5 p.m. He said the dance would be free to all students and each candidate would be assigned a table in the ELWC Reception Center for campaigning purposes.

Elections Committee member Julie Blohm said electronic amplification of "any kind" is in violation of campaign rules.

Dennis Judd, member of the Elections Committee, said all posters will be put up by the Elections Committee in the large windows of the Wilkinson Center cafeteria. After primary voting, posters will be taken down and rearranged, also by the committee. He also said candidates' first financial reports would be due Friday, March 10, and ASBYU Atty. Gen. Mark Pace said the candidates he doesn't expect any violations during the campaign, but cautioned, "any future violations will be taken care of as quickly as possible."

### Scholarship applications due by 5 p.m.

Applications for spring term, fall and winter semester scholarships must be turned in by 5 p.m. today, according to Ford Stevenson, director of Financial Aids.

Forms should be picked up and returned to A-41 ASB, he said, adding that the number of applications, so far, appears to be about 100.

In encouraging applicants, Stevenson said, "It appears as though we might be able to go a little below the 3.5 (GPA) level because we have more funds available this year than in the past."

It is all somewhat tentative, he said, because a list is made of all applicants in order of academic merit and "we go down the list until the funds are all allotted."

Comprehensive plans for a water conservation effort at BYU are the subject of a meeting scheduled for today with Assist. Physical Plant Director Harold Anderson, ASBYU Pres. Randy Sloat, the Provo City Manager and the director of BYU Housing.

Several suggestions were offered in a Thursday meeting with Provo Commissioners Odell Miner, Earl Wignall and Water Supt. Merrill Bingham, Anderson said.

A film on water conservation will be shown for students to view in the Wilkinson Center. Encouraging students to limit shower time and distributing pamphlets on water conservation are also among items to be considered at today's meeting.

Some things being looked at concern limiting lawn sprinkling to once a week, using mop buckets and of hoses for cleaning ATVs, dairy and washing university vehicles less often.

"We want this to be a congruent effort," Anderson said. "We don't want to be penny wise and pound foolish. We want to be legitimately effective right now."

Much is already being done to conserve water at BYU. The Physical Plant, he said, is inspecting refrigeration equipment and water distribution systems for leakage. A leak such as the one discovered south of the law school about two weeks ago can cause a loss of about 10,000 gallons of water per day, he said.

A 12-page checklist of conservation measures has been distributed to food service employees. The list, developed by the National Restaurant Association and the Midwest Research Institute, details steps that can be taken to conserve water.

Lamar Evans, assistant to the Food Services director, said employees have been urged to implement the guidelines. These include waiting until there is a full load before running dishwashers, using mop buckets instead of laundry tubs for repairing leaky faucets immediately and using hot water only when necessary.

Evans said all water systems are being checked to insure they are working well and to insure there is no leakage.

"All employees have been talked to and are conscious of the water conservation effort," Evans said.

Should a severe shortage develop, he

said, a similar situation could occur such as that in California, where some restaurants have been asked not to serve water. "It could happen. We might as well be ahead of ourselves."

Wells P. Cloward, director of Food Services, was out of town and unavailable for comment.

Ken Matthews, assistant director of Food Services, said at the second level of the Wilkinson Center remarked, "We'd probably have to close our doors if we didn't have water to cook with." He then added, however, that it probably would never happen as it would result in a "big loss of jobs."

Currently, faucet leaks are being inspected and leaky water is being

(Cont. on p. 9)

### Water conservation efforts to be discussed by Y officials

said, the state has a surplus.

A Davis County Health Department inspector, Rich Harvey, told lawmakers enforcement is difficult in some areas. He said there have been complaints from employees at the Freeport Center and other industrial areas in Davis County.

Harvey said nonsmoking workers are in fear of losing their jobs if they confront smokers.

# Amin delays meeting, U.S. won't send aide

WASHINGTON (AP) — President Idi Amin of Uganda has postponed a scheduled meeting with State Dept. officials at Entebbe Airport — causing the State Dept. to withdraw a plan to send a top diplomat to Kampala.

According to a broadcast monitored here, another date for the session with American missionaries, teachers and others in the East African country will be announced later.

The American diplomat, Talcoot Seelye, is currently on a two-week tour of Africa. An experienced troubleshooter who was posted to Beirut during the civil war in Lebanon, he was to have gone to the Ugandan capital in response to Amin's invitation to meet with a U.S. representative.

The Ugandan announcement caught the State Department by surprise. American embassy officials gave assurances that there was "no cause for alarm" about the scheduled meeting on Wednesday.

Seeking clarification, Secretary of State Cyrus R. Vance, said the Ugandan representative here, Paul Cherubet, was being called in for consultations. He will confer with Philip C. Habib, the undersecretary for political affairs.

In an earlier broadcast, the Ugandan government quoted Amin as saying President Carter "was still new and young in office" and that "quaint families" were afraid that Amin had sold a Saudi Arabian diplomat that Carter should have studied the situation carefully and found out "the true facts" before making any public comments.

At the same time, Amin was said to have told the Saudi representative that the Americans in Uganda were secure and well.

The Nairobi newspaper Daily Nation reported that the Americans in Uganda were being followed day and night by armed plainclothesmen.

In the Ugandan broadcast, the text of which was received here, Amin advised Carter that "all the Americans in Uganda were directly under his command" and not under the American President.

According to the broadcast, Carter has appealed to several African and Arab heads of state, asking them to use "their good offices" with Amin regarding the Americans.

At a news conference last week Carter said recent actions in Uganda "have disgusted the entire civilized world" and that "horrible murders" had apparently taken place in the country.

## LDS leader tours Chile, meets chief

SANTIAGO, Chile (AP) — President Spencer W. Kimball visited in Chile Monday. It is the fourth country on his current tour of Latin America.

President Kimball met briefly in Santiago with Mormon leaders from throughout Chile, then left the capital and flew to Chile's port city of Valparaiso for a meeting with Chile's president, Gen. Augusto Pinochet, in the seaside city of Vina del Mar.

Jerry Cahill, a spokesman for the church traveling with President Kimball, said prior to the meeting that President Kimball would explain a little bit about the extent of missionary work in Chile and around the world to the Chilean ruler.

President Kimball met Feb. 21 with President Jose Lopez Portillo of Mexico and Feb. 22 with President Kjell Laugerud Garcia of Guatemala. He also visited Costa Rica and Peru before coming to Chile.

By THE ASSOCIATED PRESS

### Governors have friend, Carter aide says

WASHINGTON — President Carter's top political aide assured the nation's governors Monday that they have "a friend in the White House" as they seek a bigger role in shaping the programs of the federal government.

Not in 32 years, since the death of Franklin D. Roosevelt, has a former governor held the White House, and Carter said he would not forget the lessons of his four years as governor of Georgia.

He scheduled two hours of a White House work session with the governors Monday with Vice President Walter Mondale and the Cabinet also on hand. The governors will go back tonight for a black-tie dinner with Carter.

### U.S. to extend fishing limits today

BOSTON — The United States stretches its jurisdiction today to cover fishing fleets of all nations operating within 200 miles of its coast. It's a test of a government's right to regulate the open seas beyond the traditional territorial limits.

Nearly four years after its introduction, legislation extending the U.S. fishing limit from 12 to 200 miles goes into effect in an effort to protect domestic fishermen along all coasts from foreign fleets.

### Hitler deputy's suicide attempt confirmed

BERLIN — Rudolf Hess, the imprisoned former deputy to Adolf Hitler, cut himself with a table knife on his left wrist, elbow and foot last Tuesday, an Allied spokesman said Monday in apparent confirmation of reports that Hess tried to kill himself.

Hess' son said last week that his 82-year-old father tried to commit suicide because of deep depression over his failing health and his solitary imprisonment.

### Streaker takes whacks

AUCKLAND, New Zealand (AP) — A streaker who interrupted a cricket game between New Zealand and Australia did an assault complaint against the Australian captain, Greg Chappell, police said Sunday.

Witnesses said Chappell was preparing to bat Saturday when two male streakers appeared on the field. One ran up to Chappell and tried to shake his hand and the Australian captain grabbed the streaker and gave him several whacks across the buttocks with his bat to the delight of the crowd.

His fellow streaker managed to escape.

## Drill team, Footprints add to Military Week

Military week continues today as the Footprints of Freedom provide music for the forum assembly at 10 a.m. in the Marriott Center.

According to ROTC cadet Keith Allred, information officer for Military Week, the program will perform as part of the forum "The Parades of Freedom," by Dr. Rollo May, a New York psychoanalyst. Allred said the general theme of Military Week is to make the student community aware of the military and the

purpose it serves. The Air Force and Army ROTC units at BYU are among the nation's largest university programs, according to Allred. The Air Force program started here in 1951 and the Army in 1968.

Col. Richard B. Jensen heads the Air Force ROTC program at BYU as professor of aerospace studies, and Col. Bartley E. Day, professor of military science, heads the BYU Army ROTC program.

## U.S. trade dips, weather blamed

WASHINGTON (AP) — A record monthly trade deficit and the biggest drop in the nation's economic indicators index since the 1974-75 recession were blamed on the severe January weather by the Commerce Department Monday.

Because of plant shutdowns and transportation snarls, exports fell 7.8 percent during the month to give the nation a deficit in its foreign trade of nearly \$1.7 billion.

The indicators index that is supposed to foreshadow future economic trends was off 1.2 percent in January, the biggest decline since a 3 percent drop in January of 1975 during the depths of the recession.

The Commerce Department said the weather was a major contributor to both adverse economic reports. It said it "had a pronounced impact in diminishing the volume of goods moving out of the country."

Job layoffs were up, and the average number of hours worked in a week was down.

But the department was confident that the economy is improving and predicts that most of the economic ground that is lost during the winter will be made up during the remainder of the year.

The drop in exports was across the board, with food down \$1.44 million and machinery and transportation equipment dropping \$615 million.

While total exports were dropping to \$9.6 billion during the month, imports rose by 2.3 percent to nearly \$11.3 billion.

Many employers can tell you why you should. Because to fill responsible jobs, they look for college graduates who have held responsible positions.

As an Army officer, you will shoulder greater responsibility far earlier than most other college graduates. That responsibility is leadership. To manage people, money and material.

It's no wonder that many employers, looking for demonstrated leadership, rate "Army officer" above most other qualifications. Or why career-minded college students so often take Army ROTC.

So if you're qualified and are a freshman, sophomore, junior, grad student or veteran, we can tailor an Army ROTC program to fit your needs. You can study for your chosen degree, and also prepare for a commission as an officer in the active Army, Reserve, or National Guard. For details on Army officer opportunities, send this post card.

# Energy, money conserved at Y

Although BYU building space continues to increase, the university's energy conservation program saved one-half million dollars in 1976.

"These savings have been passed along to the student by minimizing the tuition increase which has been made necessary by inflation," said Exec. Vice-Pres. Ben E. Lewis.

Fred Schwendeman, director of the Physical Plant Department, reported that during the past four years a concern has been made to find ways to conserve on electricity, heating, and air conditioning.

"This had to be accomplished without disturbing the classroom and activities of 25,000 students in addition to the faculty and staff working on campus," Schwendeman said. "We're still working to improve the system for further energy savings this year."

Since 1972, Physical Plant personnel have been actively engaged in making thorough studies of the systems and recommending energy conservation programs. These efforts include Lloyd Sodborg, mechanical engineer; Jack Meredith, chief operating engineer of the heating plant; Russell Walker, heating and air conditioning shop supervisor; Reed Boshard, assistant heating and air conditioning shop supervisor; and Grant Clement, electrical shop supervisor.

Meredith tightened the effectiveness of the heating plant, and Clement improved a device he made a few years earlier that reported peak electrical loads and when they occur. These were hooked up to the heating and air conditioning systems which provided a reduction of the peak electricity load by programming of fans, pumps, and chillers to be used only when needed," Schwendeman said.

These efforts have been successful, he pointed out. For instance, in January 1973, BYU used 169 million BTUs (heat units) to heat the campus compared with only 153 million BTUs for January of 1977. And the latter figure included an additional total of 57,000 square feet of space in the new Clyde Engineering Sciences and Technology Building (198,000), the Lee Library addition (225,000), and Clark Law Building (108,000), and the Wilkinson Center addition to the bookstore (44,000).

"This square footage was an increase of nearly 12 percent, but we used 16 million fewer BTUs," Schwendeman said. "The campus now has 5,549,000 square feet to heat, cool, and electric and is the largest centrally heated and air conditioned complex in the state and one of the largest in the West."

Reed Garlick checks the meter on one of the large furnaces at the Y Heating and Cooling Plant and helps in the Energy Conservation Program.

## Results Thursday

### Votes cast by members in Credit Union election

Members of the campus Credit Union may cast ballots beginning today for three members of the Credit Union board of directors and one member of the organization's credit committee.

The results of the election will be announced Thursday during the Universal Campus Federal Credit Union annual meeting dinner at 6 p.m. Tickets for the annual meeting dinner are \$2 for per person at the Credit Union Office, 199 ELWC, according to Blaine L. Anderson, credit union manager.

Candidates for the three positions on the board of directors are A. D. Calk, Wesley Craig, Blaine Porter and Marion E. Smith. Those running for the single credit committee position are Larry Bluth, Paul Warner and Gary A. Wood.

The credit union is owned and governed by members of the organization—those who save in and borrow from the credit union. The board of directors formulates policy for the credit union and gives direction to the management staff. The credit committees evaluate loan applications.

Members may cast votes in the credit union office today, Wednesday and Thursday from 9 a.m. until 4:30 p.m. Voting on Thursday will continue through the ELWC Ballroom from 5:30 until 6:15 p.m.

Events at the annual meeting include a dinner, the awarding of \$300 in prizes to those present, announcement of the election results, a slide-sound

annual report and the announcement of the winners of the Young Ambassador contest.

The Young Ambassador contest is a competition among a committee of student credit union members who advise and assist the board of directors.

## Traffic violator?

## Course could help

BYU students can remove 50 penalty points from their Utah driving record by completing the defensive driving course offered each month at Provo High School.

The eight-hour, four-week course begins Wednesday at 7 p.m., and costs \$8, according to Robert Ingerson, managing director of the Utah Safety Council. Those interested should obtain application forms at the new Office of the Utah Driver License Division, 275 N. 500 West, or Provo High School, and send the completed form and fee to the Utah Safety Council in Salt Lake, he said.

Meeting twice a week, students will learn through films and text the evasive actions necessary to avoid a traffic accident, Ingerson said.

## Military develops ray gun

WASHINGTON (AP) — U.S. scientists have made a breakthrough in development of a ray gun type weapon for possible future space battles, a senior Pentagon official has told Congress.

The breakthrough points to the solution of one of the biggest problems which has perplexed the scientists—how to reduce high-energy laser beam devices to a weight enough size and weight to be carried by satellites.

Dr. George H. Heilmeyer, director of the Pentagon's advanced research project's agency, said a way has been found in the laboratory to increase optical energy output by 350 times, using chemical lasers.

"During the past year our goal of demonstrating useful efficiencies was reached in a small-scale device," Heilmeyer told the House Armed Services Committee this week.

He said that recently completed analysis of these experiments indicated that laser systems incorporating much more efficient future chemical lasers may be feasible."

Heilmeyer cautioned that "the technical problems are formidable, but that 'space is a favorable environment for chemical lasers.'

## Protein talk to be today

A representative of Phillips Petroleum Co. will speak Tuesday on methods to produce synthetic protein.

John O. Hitzman will present the Chemistry Department seminar in 252 MARD at 3:30 p.m.

According to Dr. Richard Hawkins, host of the seminar, Hitzman's talk is entitled "Synthetic Protein by Fermentation of Petroleum Feed Stocks."

Mike May dribbles past Jake Poole in last week's game with UTEP. The junior guard logged 40 minutes playing time in the contest and put in nine points in the second half.

## Arizona, Utah lead WAC as race nears frantic end

By The Associated Press

Arizona, the overwhelming preseason pick to win the WAC has moved back into a share of the league lead, setting up playoff possibilities as the basketball season winds to a close this week.

The Wildcats thumped Wyoming 88-63 in a regularly scheduled game Saturday, Tucson Saturday, Utah, meanwhile, absorbed an 81-77 loss to New Mexico in Albuquerque Saturday night.

The action left Arizona and Utah tied with 10-3 WAC records and just one conference contest remaining. Both teams are on the road against their in-state rivals Saturday, Arizona at Arizona State and Utah at BYU.

New Mexico's 20-10 record remains in the title picture as well, but the Lobos must win twice on the road and the other two contenders must stumble this week. The Lobos, at 8-4, play at Wyoming Thursday and at Colorado State Saturday.

In case of a tie, the WAC representative to the NCAA tournament would be determined via the playoff round.

In other WAC action Saturday night, Arizona State beat Colorado State 86-68 in Tempe, and BYU beat Texas-EI Paso 65-63 in El Paso.

Mark Landesberger had 22 points, pacing four ASU players in double figures, as the Sun Devils vaulted into fifth place in the standings with a 5-8 mark. ASU outscored the Rams 12-2 early in the

second half to build a 20-point lead that CSU couldn't surmount.

Fred Anzures led CSU, now 4-8 in the WAC, with 23 points.

Vern Thompson's two free throws with one second remaining lifted the Cougars over UTEP, which remained winless in five outings in its new gymnasium.

Thompson finished with 24 points and Jay Chesserian added 17. The Miners, falling into the WAC cellar with a 3-9 mark, were led by Ron Jones with 21.

## Y's Cheeseman WAC co-player

DENVER (AP) — Their teams were out of the WAC title chase, but that didn't deter Brigham Young's Jay Cheeseman and Arizona State's Mark Landesberger. Their play on spoiler roles earned them conference player of the week honors as their squads swept each two-game series.

Cheeseman, playing with a face mask to protect a recently broken nose, paced BYU to its two wins this week.

The Cougars dealt New Mexico's title hopes a damaging blow, thumping the Lobos 88-80 behind Cheeseman's 34 points on 10 field goals and 14 of 15 free throw attempts. On Saturday, Cheeseman grabbed nine rebounds and added 17 points as BYU squeaked past Texas-EI Paso 65-63.

## Tracksters set marks at meet

The Cougars finished their indoor track season this weekend in Pocatello, establishing some personal records and adding qualifiers to their rooster for the NCAA indoor finals in Detroit.

According to asst. coach Sherald James, the team had outstanding performances from all the athletes, including one of the fastest three-miles this year. Luis Hernandez finished 13.28.2 after running a 4.25 first mile.

Qualifying for the NCAA finals was pole vaulter Jim Barry, equaling his personal best at 17-0 and completely dominating the field.

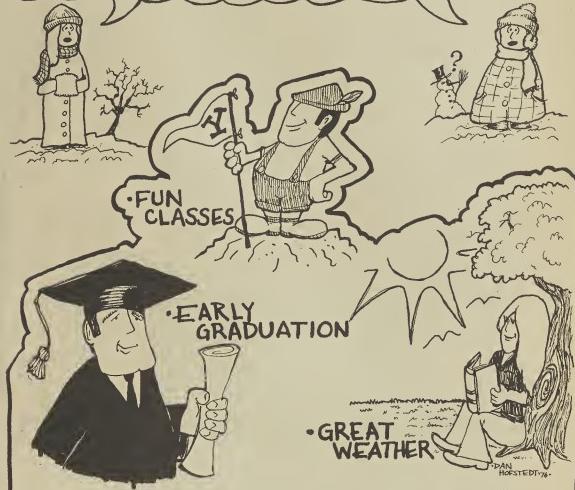

Pet Nelson beat his personal record by a foot as he heaved the shot 61-9½ to capture first in the competition. The Cougars also finished one-two in

the high jump, with freshman Kim Nielson clearing 7-0 to take first, followed by Rick Barrett at 6-8.

Kim Coombs qualified for the meet in Detroit with a 48.3 effort in the 440-yard dash which as good for fifth place as a strong New Mexico team dominated the event.

The meet was the scene of an equaling of a medley distance relay world record, as the all-Kenyan team from UTEP ran a 9.39.8 including a 4:02.1 mile anchor-leg performance by James Mungala, despite a flat shot he received earlier in the day. The Cougars were leading the race until the final quarter mile in which Mungala blistered the track with a finishing kick to propel the Miner team past BYU.

# BYU matmen co-favorites for WAC title

"It should be the closest duel we've had for the championship in some time," said BYU's Fred Davis about this week's WAC Wrestling Championships.

"It looks like Arizona State and BYU have about five potential winners," Davis continued. "But all the rest have outstanding individuals who will play an important part."

"And the setting is important. On paper, Arizona State has the advantage. If they hadn't withdrawn from the Lobo Invitational so we'd have some additional criteria to base the seeds on."

Weigh-ins are scheduled at 2 p.m. at Arizona's McKale Center with the seeding meeting at 3 p.m. and first-round matches at 5 p.m. The semifinals and consolation matches start at 1 p.m. Saturday with the finals that same night.

ASU is the defending champion, but BYU has won nine of the 14 WAC mats and been second four times, including last year. Last year's WAC champions are BYU's Sam Orme, 118, Rob Anderson at 126, ASU's Royce Oliver at 150 and ASU's Dave Severt at 172. Two other former champions will be here. Both are 1975 winners from BYU—Paul Fehlberg at 126 and Gary Peterson at heavyweight.

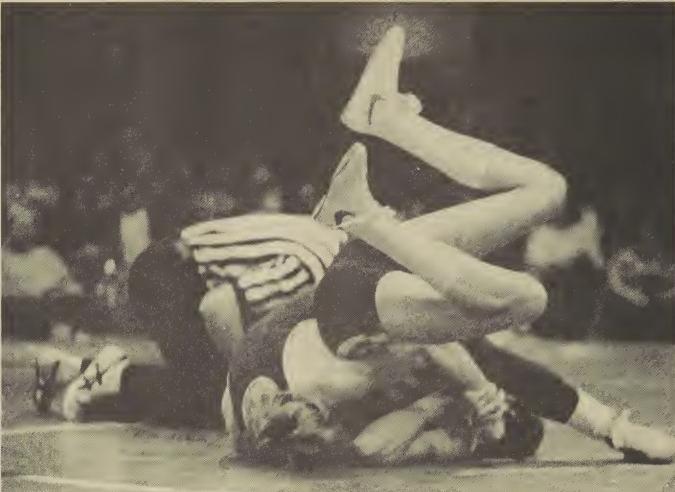

The Cougars are 6-0 in dual meets

against WAC teams, including a 19-17 win over ASU in which the Cougars won five matches and the Sun Devils four with one draw. BYU finished the regular season with three straight victories and a 15-3 record. The Cougars were ranked ninth nationally in the final dual meet poll by National Mat News.

BYU's entry list for the WAC meet is as follows: 118-Sam Orme (junior) 24-5-1; 126-Paul Fehlberg (senior) 22-5-1; 134-LaMar Boyer (junior) 8-8-4; 142-John Mecham (senior) 28-4-1; 150-David Hansen (junior) 19-9-1; 167-Brad Hansen (sophomore) 32-1; 177-Rory Needs (junior) 21-0-2; 190-Mel Maxwell (sophomore) 8-10; 197-Gary Peterson (junior) 15-3.

The Cougars closed out the regular season with three road triumphs last week. They beat Colorado State, 26-19, after trailing 13-6; defeated Northern Colorado, 20-19, after being behind 15-6; and topped Wyoming, 36-9.

Hansen continues to dominate opponents. He has now won 26 straight matches since losing in overtime in the opening round of the Beehive Invitational. The sensational sophomore was toppled in the semifinals at last year's WAC meet by Paul Reed of Wyoming. The two met in Laramie Saturday night with Hansen winning, 6-5.

A Y grapper attempts to pin his opponent to the mat in a recent meet with Cal State Fullerton. BYU will attempt to out-wrestle its WAC competition this weekend in the league championships.

Hansen had a 5-0 lead until he slipped with 10 seconds remaining in the final period. Reed got a reversal and near fall to tie the match, but he couldn't escape from Hansen during the final period.

Needs, unbeaten this season, tied defending champ Dave Severn in their dual meet, 1-1. That match-up certainly looms crucial for the title aspirations of the Cougars and Sun

Devils.

Both Orme and Oliver went on to fifth-place finishes in the NCAA after winning WAC titles last year. Provo Oliver, who has lost only once this year, is a heavy favorite to repeat.

For BYU, Orme's toughest competition should come from ASU's Billy Rosado. Fehlberg battles Anderson and New Mexico's Butch Escalante. Mecham has a showdown

with ASU's Tim Jeffries while David Hansen has to worry about Oliver and Arizona's Dave Musselman. Patch comes from Oregon's John Bards, CSU's Bryce Moen and Utah's Steve Christianson.

Brad Hansen and Reed are on another collision course as are Needs and Dave Severn. Peterson lost to James Mitchell of ASU and also has to contend with Arizona's Mike Engwall.

**2 cage  
eye ma  
in last**

When BYU closes today Saturday against Utah, you'll be watching the final in two hours. The Cougars are basketball's national champs.

Four-year starters are from Orem High and Morgan Ogden High near Salt Lake City.

Orme is second on the team with 1,392. Last week past Roland Mink's runner-up position before Cosic's 1,512 from 1971's 792 career rebounds on only 111 behind (116-65-2).

Both players have a second in other areas as well. Cheesman has 288 career points and is only seven behind (1971-72) in second place.

The 6-9 forward has six goals and six assists. In rebounding, he has 501 (1949-51). Cosic has 501, a 6-8 center per cent from the field could move into second. Eakins (1967) is second. Neil Roberts (1967) is third. Craig R. with 559.

Second in career percentage also is Hando. He is averages games. Roberts is the per cent and Raymond Christianson.

Cheesman is fifth

rebounding list with 460 behind Herschel Pede

Handy is 10th on the chart with 1,084 points. John Fairchild's 1,109

## Baseball team to open 9-game Hawaii stand

The BYU baseball team opens a nine-game stand in Hawaii on Friday after displaying some encouraging pitching by winning two of its first three games.

The Cougars play doubleheaders against the University of Hawaii March 4 (2 p.m.) and 6 (5 p.m.) and have a single game with Gonzaga at 1 p.m. March 10.

A charter flight, sponsored by the Cougar Club, will carry the BYU baseball and rugby teams to the islands as well as provide the opportunity for some vacationed fans to get to the games with the team.

The group leaves Salt Lake City on the morning of March 3, flying to Hilo and Honolulu. The return flight is scheduled after the Gonzaga game in the evening of March 10.

BYU takes a 2-1 baseball record into the series. The Cougars started with a 8-2 victory and then split with a 3-6 victory and then split with a doubleheader Feb. 19, losing the opener 7-2, but winning the second game, 8-2.

New coach Gary Pullins was expecting the hitting to be strong and the pitching to be questionable, but the reverse proved true. Starters Mike Tucker, Tom Morris and Axle Hardy pitched well as did relief specialist Mike Stover.

Bad hitting is the area where Pullins is looking for improvement during the Hawaii swing. There were two home runs and six doubles in the three games, but the squad also combined for a .214 batting average and 31 strikeouts.

There were several bright spots for the Cougars during the games, however. Only one senior, Sophomore Marc McGowan, had a grand slam, and sophomore Don Valgardson hit two doubles, one of them a bases-loaded job in the ninth inning to win the game.

They drew high praise from pitching coach Vern Law for blanking the Rebels in both appearances. He struck out 5 in 3 2/3 innings to win one game and preserve the victory in another.

Stover and Tucker are Juniors while Morris is a sophomore and Axle Hardy a freshman. Others who did relief duty were junior Doug Drew and freshman Scott Nielsen.

All 14 non-pitchers played at UNLV. Valgardson and freshman Ken Clayton played first, juniors Robin Buchanan and Cliff Nelson played second while junior Kinnan Olson was third and senior Ken Nicholson was at shortstop.

Juniors Jeff Tidwell, Steve Phillips and Cam Killebrew were in leftfield while Tim Anderson was in center. Thomas and freshman Jeff Burton were in right.

Junior Rick Scrivner and freshman Len Tashako alternated behind the plate. Tashako will be returning home for the Hawaii games. His hometown is Aiea, and he led Iolani High to the state championship last spring.

We were glad to see him again a chance to play ball again. And it's good to win despite not hitting well. This year's team is supposed to be the best UNLV has ever had, but we still should have swung the bat better."

BYU's baseball program added a new player after the UNLV series when Vane was returned from the basketball team where he started the first 22 games and averaged nearly 10 points per game.

All, a junior, is a two-time all-WAC shortstop and this year will be his second time on the all-WAC academic team. He was the first UNLV player to indicate Louisville as action year that the season as a designated hitter.

The Cougars open at home March 19 in an Alumni-Media game which begins at noon. The early start is to make adjacent parking areas available for the NCAAs Far West Regional basketball tournament.

It will be a regular nine-inning game between the BYU varsity and a group of former players under the direction of Rod Clawson (Provo) and Jim Purser (Salt Lake City).

Several media personalities will "coach" the teams, and Pullins will make his journalistic debut the next day in the Provo Daily Herald.

## Y golfers win Rainbow Classic

By ROD COLLETT  
University Sports Writer

The BYU golf team, behind the winning individual performance of WAC Player of the Year Gary McGowan, captured the team competition Saturday in the first John A. Burns Rainbow Classic Intercollegiate in Honolulu, Hawaii.

In the first Rainbow Classic, the Cougars were coming off a second-place finish in their first start of the 1977 season two weeks ago, and

Coach Karl Tucker felt the chances of his team sweeping the event in Hawaii.

McGowan, an All-WAC selection in 1974, 1975 and 1976, who hails from Colusa, Calif., provided the spark which brought the linksters their first victory of the new season. Last year, McGowan shot a team round 75 for a 54-hole total of 216 to take individual medalist honors.

This is the third collegiate win for McGowan, others being the Rocky Mountain and Rebel Classics.

Second place in individual competition went to Y First Team All-American Mike Brannan who finished with a three-round total of 220. The Cougars placed four of their players in the top five individual medalists.

In team competition, the golfers beat all other opposition by 17 shots, with a three-round team total of 873. WAC rival New Mexico finished second at 890.

to repeat.

The Cougars will return home after the trip to Riverside to catch up on school work and then will again hit the road as they travel to California for the Fresno Classic, where they also are defending champions.

The next action finds the team traveling to Riverside, Calif. to participate in the Pacific Coast Intercollegiate where, according to Coach Karl Tucker, his team is the defending champion and is favored with a three-round team

total of 873. WAC rival New Mexico finished second at 890.

to repeat.

The tournament was played over the Pacific Coast Links of Walaino Club and perfect weather which the Cougars also hope to see in their next tournament.

## Netters to face UCLA, USC

The sixth-ranked Cougar tennis team travels to Southern California and UCLA this week to take on the No. 1-ranked Bruins and the No. 2 ranked Trojans.

[The last time BYU faced Southern California in the National Collegiate Indoor Championships, at the University of Wisconsin, the Cougars gave the Trojans a 4-3 win, winning three of the three doubles matches and two of the six singles matches before dropping a narrow 5-4 decision.]

The Cougars should go with much the same line-up as last time, with Bruce Kleege playing in the No. 1

spot for BYU, and John Bennett, Eric Peterson, Chris Smith, Doug Riedel, Rich Williams or Steve Jones also making the trip.

Two weeks ago when the two teams met, Bruce Kleege came up with a win in singles play over All-American Chris Lewis in three sets—5-7, 6-2, 6-4. Kleege, also an All-American, has remained undefeated in tournament play so far this year. His last loss came at the hands of Kent Crawford of Utah in mixed team tennis at the Marriott Center in January. The two All-Americans battled down to a 6-3 finish in Crawford's favor.

points. Freshman center Tina Gunn paced BYU with 23 points and 17 rebounds. Anna Stevens and Diana Lemmon added 14 points each.

BYU finished the season with a 10-3 conference record and 11-7 overall. The Cougars will participate in the Region 7 Championship playoffs beginning March 4.

BYU hosted the Women's Invitational Track and Field meet in the Smith Fieldhouse Saturday.

The Cougars powered to a first-place finish by amassing 110 points. They were followed by UNLV, 66; Idaho State, 63; Colorado, 44; Utah State, 36; Wyoming, 34; and Utah 14.

The Cougars had two first-place winners. Kathy Hart won the high jump with a 5-6

leap, and Diane Clay won the 440 with a time of 1:00.5. Miss Clay was followed by teammates Maria Garcia and Marci Radwick, who finished two and three in that event.

Second-place finishers for BYU were: Lisa Bailey in the 60-yard dash; Linda Christensen in the two-mile; the relay team of Wendy Burger, Becky Carroll, Ramona Maughn and Miss Christensen in the 2-mile relay; and Linda Estes in the pentathlon.

Maria Garcia, Christensen, placed third in the mile, as did Lisa Eberle in the pentathlon.

Paula Dunn took fifth in the mile run.

Sandy Livingston was sixth in the 60-yard dashes as were Miss Maughn in the 380 and Miss Burger in the mile.

## Y coed accosted by man with knife

A BYU coed was accosted by a man brandishing a knife while she was walking northeast on the bike path behind the Smith Fieldhouse Thursday night.

Chief Robert Kelshaw, BYU Security-Police, said the incident occurred at 7:50 p.m. The coed was walking toward the bike path.

The assailant stopped her and forced her into the bushes lining the path, according to Kelshaw, but then heard someone walking along the path, and threw the woman to the ground and ran.

Kelshaw said the man was described as being about six feet tall, 180 pounds, and wearing a sweater and a white shirt. He was estimated to be 25 years old.

While there is no cause for alarm, Kelshaw said, women should be cautious when walking alone at night.

## Y Court finds campaigner 'guilty,' passes, then suspends, sentence

The defendant in the second ASBYU election violations trial was found guilty on all three counts of foul charges, but his penalty was suspended.

The ASBYU Common Court found the defendant guilty of "soliciting votes without referral or connection" and "illegal declaration of candidacy" and distributing campaign literature. He was not found guilty of soliciting votes on dorm floors, a violation of on-campus dorm policies.

The three justices deliberated more than 30 minutes before returning the unanimous guilty verdict. The defendant was restricted from campaigning for 12 hours after the nomination convention today.

John Gibbons, senior Common Court justice who presided over the trial, said, "We suspended the sentence after we determined the violations weren't blatant."

Gibbons said the defendant "was trying to stay within the limits, although stretching them a bit."

Randy Kester, student defender, said he was not assigned to the case until 3:50 p.m. Thursday. He said he was familiar with the general charges but didn't know the specifics.

Gibbons said the trial was postponed to give the defense more time to prepare.

the defense for postponement was granted because the formal complaint was not issued until noon Friday.

The case had been delayed more than once. Packer said the "court time was changed a number of times." He would not say how long it had been under investigation.

Randy Kester, student defender, said he was not assigned to the case until 3:50 p.m. Thursday. He said he was familiar with the general charges but didn't know the specifics.

Gibbons said the trial was postponed to give the defense more time to prepare.

## Eviction requires 30-day warning

### Issues and Answers

Issue: My wife and I are living in a duplex for which no contract was signed because the owner did not want to be legally bound by anyone. This has not become a problem as of yet, but we are afraid it will. We are also a tenant but feels that she has authority to order the other tenants around. Every time a baby cries or a piano is played, the offending party receives a phone call or visit with an ultimatum: "If you or she is not evicted, we will sue you." We are concerned that the other tenants and myself are going to be pretty tired of this and would like to tell the landlord and his sister off. If this is done and we are evicted, does the landlord have to wait until there is no contract?

Answer: Yes, even if there is no verbal contract, a landlord can evict a tenant before the 30 days are up. In this situation, we would advise you to seek legal advice. Your attorney can file a petition against the other tenants and yourself. Both the other tenants and myself are going to be pretty tired of this and would like to tell the landlord and his sister off. If this is done and we are evicted, does the landlord have to wait until there is no contract?

Answer: Yes, even if there is no verbal contract, a landlord can evict a tenant before the 30 days are up. In this situation, we would advise you to seek legal advice. Your attorney can file a petition against the other tenants and myself are going to be pretty tired of this and would like to tell the landlord and his sister off. If you know how to square dance  
and would like to improve your square  
dancing skills, come join us. We will  
meet Wednesday night in 179 JSB.  
Round dancing is from 7-8 p.m. Square  
dancing is from 8-10 p.m. Come join the  
fun.

## Rural school 'experience' spots offered

The College of Education has a limited  
number of openings for rural  
student teaching experiences in the  
Uinta Basin and Millard County for fall  
semester.

"Rural student teaching provides the  
student with an opportunity to gain  
teaching experience in a rural setting,"  
said Ivan Muse, a member of the  
National Rural Education Association  
Council and associate professor in  
seminar.

He said the program is part of the  
College of Education and meets teacher  
certification requirements. The student  
teaching experiences last either eight or  
sixteen weeks.

Students interested in applying for  
rural student teaching should go to 114  
MCED before late May and they  
will be given out on a first-come,  
first-served basis. He said the deadline  
for applications is mid-April.

"Most school districts in the country  
are rural," Muse said. "This program is  
out of our few rural county geared  
for rural student teaching."

The Uinta Basin is the Roosevelt area  
and Millard County includes the  
Fillmore and Delta area, Muse  
explained.

## Y's court team loses to Texas

BYU's Region Nine Moot Court winners from the  
law school were eliminated from national finals held  
in Houston, Tex., last weekend.

According to Dan Hawley, BYU team coach,  
Ralph Dewsnup and Jerry Pearson lost to the  
University of Texas team in the first round of the  
national court finals sponsored by the junior bar of Texas.

Hawley said the winner of the finals was Syracuse  
over Baylor. He said there were 15 teams competing  
in the single-elimination contest.

Competing on the regional level in San Francisco  
on Saturday and Sunday, the team of Dewsnup and  
Pearson won the regional and two of the seven trials.  
The third round was scheduled for Sunday,  
but BYU withdrew from the Sunday competition.  
Pearson and Dewsnup were chosen as the winners on  
the basis of their performance during the first two  
rounds.

Pearson, a third-year law student from Idaho Falls,  
Idaho, was named Outstanding Student Litigator  
of the first round of the regional finals.

Dewsnup, a third-year law student from Salt Lake City,  
Utah, was chosen as the Outstanding Student Litigator  
of the second round of the regional finals.

Hawley said the moot court trials are nationwide.  
"It's like the basketball team winning the NCAA  
Finals," he said. The student teams try their cases  
before judges in mock court. The student advocates  
must present the case from the standpoint of the  
defense and then re-try it as the prosecution. He said  
the students must win both sides of the case to  
remain in competition.

"During the regional finals, only three out of the  
14 teams won the prosecution," said Hawley. "We  
were one of the three."

The defense champion in the national finals,  
Harvard, was defeated in the first round.

According to Hawley, mock trials will be held on  
campus in mid-March. The cases will be tried before  
retired Supreme Court Justice Thomas Clarke.

of shower and to spend less time in the  
shower," he said.

Other hints included in the letter  
remind students not to leave water  
running when brushing teeth, shaving  
or washing. The letter also discourages  
water fights.

## 'The Magic Flute'

# Y production is refreshing

By JOE LEAVITT  
University Staff Writer

It is sometimes difficult to take something old and standardized and make it new and refreshing. But that is just what BYU's Music Theater did in the world premiere of their own opera "The Magic Flute" Friday night. The interpretation of "Flute" using Clayne Robinson's new English libretto was most enjoyable.

Generally, opera plots are so complex and involved that audiences get bored, because they don't understand what is happening. This is not the case with "The Magic Flute." The librettist explained the plot thoroughly. During the overture, an innovative tableau provided a preface to the opera.

Mozart's "Magic Flute" deals with a wicked Queen of the Night, who represents the power of darkness, and her struggle to thwart the success of good represented by Sarastro, High Priest of the Brotherhood of Light.

The queen's three ladies in waiting, her bird catcher, Papageno, a foreign prince named Tamino, and the queen's daughter, Pamina, unfortunately entangled between the forces of goodness and evil-doing.

The roles of Prince Tamino and Pamina were sung by Robert Dunn and Debra Mitchell. They both showed much vocal prowess with their lyric

interpretations. Dunn, however, had some difficulty matching the powerful voice of Mrs. Mitchell and had trouble "shifting gears" at times in the higher vocal register.

Martin Wright and Leslie Ballif as Papageno and Papagena literally stole the show, physically and dramatically, highlighting the production with humor and clever antics.

Sarastro the high priest was portrayed by eighteen year old bass David Rich, who amazed the audience with his deep vocal resonance. At times it was difficult to hear Rich, a factor which will likely remedy.

Coloratura soprano Diane Taylor as the Queen of the Night was particularly stunning. Her mastery of the upper voice is superb. She used her skills to set the audience on the edge of its chairs.

The ladies-in-waiting to the queen were Susan Alexander, Claire Mustard, and Cynthia Farnell. The three added spice to the opera and drew numerous laughs from the opera-goers.

Designed with simplicity in mind, the sets for "Magic Flute" follow the traditional theater setting, open and low cost. The ingenious one-set stage with many interchangeable hanging panels helped to create differing moods, though it did not always reflect the different feelings accurately. In some scenes, the gloomy setting seemed

Tamino (Rob Dunn) plays the magic flute during a performance of the BYU production of Mozart's "The Magic Flute."

to contradict the light, happy mood.

After many of the scenes, dancers appeared on stage, portraying gods, serpents, or some other creature. Unfortunately, these dances were always out of place, and detracted from the smooth flow of the story. It seemed they were thrown in only to involve another department with the opera.

The chorus for "Magic Flute" was magnificent. The ensemble consistently sported a beautiful rich blend. It was disconcerting, though, to see them rigidly lined up during their stage sequences.

Another slightly disappointing aspect

of "Magic Flute" was the occasional dragging of tempos and intonation errors by the orchestra.

As a whole, however, BYU Music Theater's production of Mozart's "Magic Flute" is superbly entertaining and well worth seeing. There are two different casts for "Magic Flute," each performing on alternate nights. The opening night cast will also perform Wednesday. Tickets are still available at the Music Ticket Office in the Harris Fine Arts Center, for the remaining performances tonight, Wednesday night and Friday night.

## Chamber Series

### European winds to give Y concert

Ricercare, the renowned European Renaissance wind ensemble, will perform at BYU March 9 at 8 p.m. in the Madsen Recital Hall, HFAC, as a feature of the BYU Chamber Series.

The group is made up of five artists, Michel Piguet, Robert Gosselin, Karen Brinkmann, and Gabriel Barroso. They perform 15th and 16th century music on recorders, single and double reed instruments, and percussion. The musical director, Michel Piguet, founded the ensemble in 1963 with the aim of creating a group of winds to perform as authentically as possible the rich repertoire of Renaissance and early Baroque Music.

Ricercare's style approach includes authentic articulation, improvisation and tuning, as realized from descriptions in wind instrument method books of the 16th and 17th centuries.

The group has toured extensively throughout Europe, including Spain, France, England, and Germany, and also the United States. The artists are well known for their annual series of concerts in the Zurich Festival as well as for their many recordings for Angel Records.

Michel Piguet is recognized as the world's foremost Baroque oboe player. He teaches historical double-reed instruments and recorder at the Schola Cantorum in Basel and Zurich, Switzerland. His most recent performances were at the Aston Magna Music Festival in Great Barrington, Mass., and the Oberlin Conservatory of Music.

For ticket information, contact the Music Box Office at 375-7788.

"Ricercare," a European wind ensemble featuring Renaissance music and instruments, will perform at BYU March 8.

## The Week

### Plays, music

#### Today

Varsity Theater: "Wilderness Family," 3:30, 7, 9:30 p.m.  
"The Magic Flute," de Jong Concert Hall, HFAC, 8 p.m.  
"Death of a Salesman," Pardoe Drama Theater, HFAC, 8 p.m.

#### Wednesday

Varsity Theater: "Wilderness Family," 3:30, 7, 9:30 p.m.  
"The Magic Flute," de Jong Concert Hall, HFAC, 8 p.m.  
"Death of a Salesman," Pardoe Drama Theater, 8 p.m.  
Concert: Ancient Instrument Ensemble, Madsen Recital Hall, HFAC, 8 p.m.  
Music at Midday, noon, Madsen Recital Hall, HFAC.

#### Thursday

Varsity Theater: "Wilderness Family," 3:30, 7, 9:30 p.m.  
Film Society: "Destry Rides Again," "Cops," 7 p.m. 446 MARS.  
International Cinema: "The Mystery of Kaspar Hauser," German, 5:15, 9:10 p.m.; "Steppenwolf," English, 7:15 p.m.  
Play: "It's So! (If You Think So)," Neile Experimental Theater, HFAC, 8 p.m.  
"Death of a Salesman," Pardoe Drama Theater, HFAC, 8 p.m.  
Ospipov Balalaika Orchestra, Marriott Center, 8 p.m.

### Y organist to perform this month

Terry Donat, graduate student in organ performance, will present a recital in the Provo Tabernacle on March 25 at 8 p.m.

An announcement run Friday in the Daily Universe said the recital was Feb. 25.

## Cowboy singers still 'riding high'

LOS ANGELES (AP) — Roy Rogers is the singer singing "Happy Trails to You," and Gene Autry has hung up his six-gum.

But both men are still riding high; one has shot a new movie, the other is riding herd on a business empire.

The two cowboy heroes of films and television are healthy, and today Rogers is back, making public appearances and enjoying a revival as "King of the Cowboys." Autry is the owner of the California Angels baseball team and trying to buy a pennant.

"I've just spent \$5 million for some players," says Autry. "If I can't make it with them, I'll have to hook my horse."

Autry is 69, about 25 pounds overweight and doesn't ride horses anymore. He runs a business empire of several television and radio stations, a hotel, two ranches and the Angels.

Autry is 64, lean and active, living at his home on the edge of the desert in Victorville. He exercises daily and loves to hunt, fish, race boats and ride his motorcycle "out there with the wind and the jackrabbits."

Both men have had long, successful marriages. Autry married Ina Mae Spevay in 1932, and Rogers married Dele Evans 29 years ago.

Autry made 95 films in 1934 in "Old Santa Claus" and 40 million records. One of them was "Rudolph the Red-Nosed Reindeer."

"I was the first cowboy," he says. "The best, but when it doesn't matter. Even better, no one can say anything else."

Rogers is back in "The Big Country" and "T.J.'s," his first film and he says more and perhaps another works. He and Dale marshals of this year.

The Roy Rogers Days at Victorville is memories. There are boots and his horse, the smartest horse he ever owned.

He plans to earn

## Entertainment

The Daily Universe

### Student will give recital

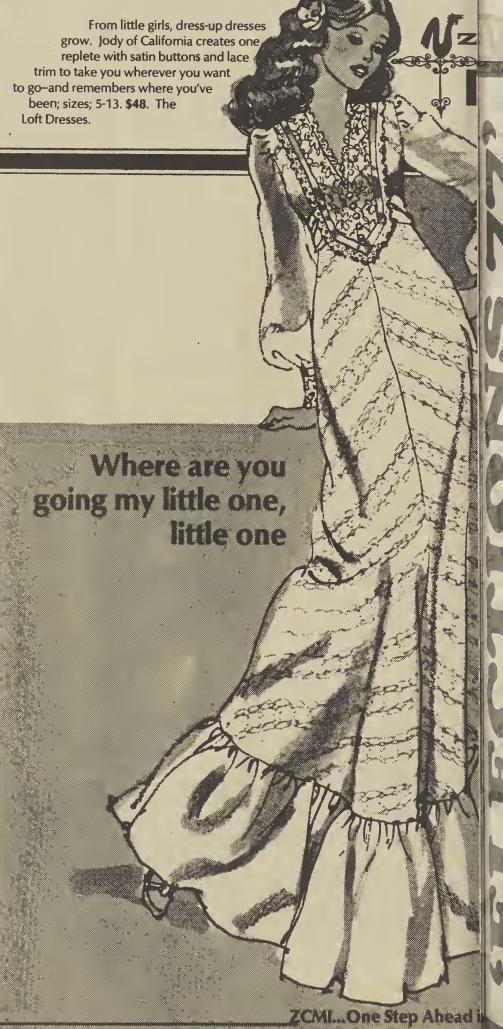

A junior recital in saxophone and bassoon will be presented tonight in the Madsen Recital Hall, HFAC, at 8 p.m. Nancy D. Waters, a junior in music education, will present a recital in the Provo Tabernacle on March 25 at 8 p.m.

An announcement run

Friday in the Daily Universe said the recital was Feb. 25.

From little girls, dress-up dresses grow. Jody of California creates one, replete with satin buttons and lace trim to take you wherever you want to go and remembers where you've been; sizes: 5-13. \$48. The Loft Dresses.

Where are you  
going my little one,  
little one

June Hunt, daughter of industrialist H. L. Hunt, will perform March 12 at BYU.

### Concert to feature folk-gospel singer

Singer June Hunt will present a program of "Message Music" on March 12 at 8 p.m. in the Madsen Recital Hall, HFAC. The versatile entertainer, daughter of world-renowned industrialist H. L. Hunt, blends soft-spoken words with classic folk and gospel melodies. She is accompanied by pianist-arranger David Moorhead, and by her own guitar.

Hunt has performed before numerous television audiences from Philadelphia to Los Angeles. She has appeared as a guest with the NBC Today Show and as soloist with the Billy Graham Crusades. In the summer of 1972, she toured South Vietnam for the USO.

She explained that her desire, whether before an audience of 10 or 10,000, is always to help individuals appreciate the value of experiences, good or bad. She says through song, "Lord, please help us learn the secret that only little flowers know: if it never rains then we'll never grow."

Her activities outside of entertainment include many invitations to speak on such subjects as "Get the Best Out of Your Life," "How to Attract Good Luck," "How to Win Friends and Influence People," "The Magic of the Masses." She is also the author of "Above all Else," a book which shares her experiences and struggles in learning how to let God influence her life. Her program promises to be a most enjoyable evening of relaxed listening. The public is invited, free of charge.
